

Vandall & Shock-Proof Casing

Water-Proof Design

Extreme Night Vision

4-Pin Aviation Connection

## Waterproof rear-view camera with built-in IR for night vision up to 65ft Military-grade design

The IP69-rated EYECAM RV218 offers the complete package for rear-view supervision. Featuring a waterproof housing and an aviation-standard four-pin connection, it employs a powerful 1/3" CCD to produce high-resolution color video for maximum accountability. A 360° adjustable plate makes it easy to mount on any angle, and the military-grade design ensures dependable operation in the most demanding environments.

### Technical specifications:

- Military-grade IP69-rated camera
- High-resolution 1/3" CCD
